TSSRCT

PROFESSIONAL OVERVIEW / NOVEMBER 2026

Music. Artists.
A shared platform.

TSSRCT is a multidisciplinary platform founded by Hadone and UFO95, connecting electronic music, visual arts, fashion, design and technology.

Its name draws from the tesseract: a structure beyond direct perception. The project explores the relationship between sound, space and visual expression through recordings, collaborations and physical editions.

CO-FOUNDER / DJ / LIVE / AMBIENT

Hadone

Hadone has been redefining his sound for the past decade, shaping a singular vision that bridges emotion, intensity and precision. From tracks like How to Fake Success and Hope Reminds Me of Her on Monnom Black, his evolution has never stopped.

His focus has shifted deeper into sonic research and sound design, exploring textures that blur the line between chaos and control. Behind the decks, his four-deck performances channel tension and release, while his live sets extend a musical universe born from constant studio experimentation.

Alongside UFO95, he founded TSSRCT to defend an uncompromised vision of techno: raw, free and without filters. His exploration also extends to ambient and experimental live performance.

CO-FOUNDER / LIVE

UFO95

Based in Brussels, UFO95 is a live performer and resident at Tresor in Berlin. His sets at Berghain, Bassiani, Basement NY and Tresor are driven by improvisation: machines breathing, patterns mutating and energy shifting.

His releases for Tresor, WSNWG, MORD and TSSRCT channel the same stripped, relentless energy that powers his performances. His music reimagines techno's core principles: repetition as hypnosis, rhythm as resistance and sound as total immersion.

He co-founded TSSRCT with Hadone. Together, they release as Civic Instruction.
